- renseignements recherche :	Non applicable

#### Work location

UFR SANTE Caen – Campus 5.

Travels in the Calvados, Manche and Orne departments

#### Hierarchical positioning

Reporting to the Health Faculty Director

#### Main responsibilities of the position

As part of the roll-out of the digital health teaching unit in all health training courses (ar-rêté du 10 novembre 2022), the contract teacher recruited will have to remediate existing resources in collaboration with the designers and the Pedagogical Engineer for undergraduate health students (medicine, midwifery, pharmacy, odontology, nursing, chiropody, physiotherapy, psychotherapy, radio manipulation, occupational therapy). Students will work autonomously on video vignettes representing a total of 20h30 of their time, followed by remediation sessions (7h30/group of supervised work) provided by the person recruited. Remedial sessions will be adapted to each course of study.

These remedial sessions will take the form of tutorials classes at various institutes and schools in the Calvados, Manche and Orne départements.

The teacher recruited will also be responsible for keeping a regulatory watch on digital health resources, and for updating content in conjunction with the designers and the educational engineer.

The teaching service required is 384h for the year.
