Profile :

The University of Caen-Normandie is recruiting a Junior Professor on a 60-month contract. The person recruited will teach 64 hours in the Mathematics & Computer Science department of the UFR des Sciences. The person recruited will carry out research in the GREYC UMR CNRS 6072 laboratory in the field of artificial intelligence, developing interdisciplinarity with chemistry, nuclear physics and materials science.

Key words :

Computer Science, Artificial Intelligence, chemistry, nuclear physics, materials science.

**I.TEACHING PROFILE :**

**Objectives in terms of teaching content and supervision:**

You will join the teaching team of the Mathematics & Computer Science department of the UFR des Sciences at the Université Caen Normandie. You will be mainly involved in teaching Artificial Intelligence. Depending on requirements and your skills, you will also be able to teach computer science in the Mathematics & Computer Science department of the University of Caen (bachelor's and/or master's degree). All these courses are located on the university's Campus 2.

You will need a sound knowledge of the fundamental concepts of computer science and artificial intelligence.

**Teaching and administrative responsibilities:**

You will be part of the department's teaching team, responsible for student follow-up, internships and projects. Eventually, you'll be expected to take part in the management of the courses.

## II. RESEARCH PROFILE :

### **Theme/Project:**

We are looking for an expert in Artificial Intelligence capable of developing interdisciplinary interfaces with chemistry, nuclear physics or materials science at the Université de Caen Normandie.

### **Recruitment objectives:**

In addition to a demonstrated quality of scientific production, the person recruited must have demonstrated his/her research autonomy at international level in the field of Artificial Intelligence. He/she must also be able to demonstrate an interest in interdisciplinarity activity (in the fields of chemistry, materials science and nuclear physics would be a plus). The candidate will join one of GREYC's teams (IMAGE, MAD, CODAG) carrying out AI research activities, depending on the proposed research project.

### Application and recruitment procedures

Applications are open from **May 31, 2024 at 10:00 (Paris time) to September 15, 2024 at 16:00** noon (Paris time).

Applications must be submitted via the Galaxie application.

To access to Galaxie:

- If candidates have never logged in : The "New candidate" section allows them to be issued with a candidate number and a personal password, ensuring confidentiality and authentication of the operation.
- Once candidates have a candidate number and personal password previously issued on the Galaxie portal: They use them to identify themselves, as the Galaxie application remembers this information.

The documents to be attached to the application file are set out in the Order of 6 February 2023, as amended, relating to the general terms and conditions for transfers, secondments and competitive recruitment of lecturers, university professors and junior professors (see in particular Title III, articles 24 to 27 and Title IV, articles 28 to 31):

- photographic identification ;
- proof of possession of a PhD or a diploma, title or qualification recognized as equivalent;
- the examination report for the diploma produced or a statement from the institution certifying that no examination report has been drawn up;
- an analytical presentation of the works, books, articles, achievements and activities related to the profile of the post in question, mentioning those that the candidate intends to present at the audition;
- a copy of each of the works, books, articles and achievements mentioned in the analytical presentation and which the candidate intends to present at the audition, not exceeding 6 documents.

Applicants who do not hold a PhD must have their university diplomas, qualifications and titles recognized as equivalent to a PhD in accordance with one of the procedures set out in article 5 of decree no. 2021-1710 of 17 December 2021 relating to the junior professorship contract provided for in article L. 952-6-2 of the Education Code and article L. 422-3 of the Research Code.

Any application incomplete by the above-mentioned deadline will be declared inadmissible. Only candidates selected by the selection committee on the basis of their applications will be invited to an audition.

The aforementioned decree no. 2021-1710 of 17 December 2021 sets out the conditions for renewing contracts, the procedures for assessing scientific merit and suitability to perform the duties of each body prior to tenure, the procedures for appointing members of selection and tenure committees and the conditions of the service commitment.
