PRESENTATION / OBJECTIVES

The objective of the module is to combine the development of language skills with the cultural discovery of heritage (gastronomy, society and culture).

The courses favor an **interactive approach** and organizational methods aimed at encouraging the learner's involvement (group work, research on files). The devices are based on **diversified media** (audio, video, texts, etc.) and **visits** integrated into the learning sequences.

CONTENTS – SESSION 2

SEQUENCE 1 - 15 hours (8 hours of lessons + 7 hours of visits)

GASTRONOMY

The module aims to develop linguistic skills (production, oral comprehension and interaction, lexical enrichment) which allow exchanges around the themes of food, gastronomy and catering. On this occasion, the discovery of local crafts and specialties is also encouraged, with local visits (to a brewery and a bakery, for example).

SEQUENCE 2 - 15 hours (9 hours of lessons + 6 hours of visits)

FRENCH SOCIETY AND CULTURE

The objective is to practice the language by discovering aspects of the daily and cultural life of the French; thus, various themes (for example, towns, Norman landscapes, leisure, the media, etc.) will be approached through different means of artistic expression: song, painting, poetry, photography... An urban walk will be offered to students.

The topics covered will also allow them to discover in a playful way some key works of the Museum of Fine Arts of Caen. This learning will be associated with the reading/comprehension of various texts, as well as written production work and language activities.

ASSESSMENT

Certificate of participation + development of a **portfolio** (set of documents that reflect learning and training experience).
